Professional Summary

Computer Science student at NYIT concentrating in AI with hands-on backend development experience building REST APIs and AI-integrated data pipelines. Currently interning as a Backend & AI Engineer at NutriScan working with Python, MongoDB, and Google Gemini Flash, and as a Software Sales Intern at IQVentory qualifying prospects and managing lead pipelines. Built and deployed a custom Flask CMS replacing a paid Wix platform, saving \$200+ annually. Seeking 2027 internships in backend and AI engineering.

Education

New York Institute of Technology

Bachelor of Computer Science, Concentration in Artificial Intelligence

Old Westbury, NY

Expected Graduation: May 2027

- Dean's Honor List (Spring 2024 & Spring 2025) | Presidential Honor List (Spring 2026)

Skills & Awards

Programming Languages: HTML, CSS, Python, Java

Backend & APIs: REST API Development, API Integration, Data Pipelines, MongoDB, MySQL, PostgreSQL, Flask

AI/ML: Large Language Models (LLMs), Google Gemini, Prompt Engineering, AI Pipeline Development

Tools: Git, Google Workspace, Vercel, Supabase

Soft Skills: Project Coordination, Team Collaboration, Public Speaking, Event Planning

Certifications: NASPA Peer Educator (June 2024), Girls Who Code (August 2022)

Experience

NutriScan

July 2026 – Present

Backend / AI Engineer Intern

- Developed and deployed backend REST APIs supporting an AI-powered food recognition platform in a live staging and production environment using Python, MongoDB, and Google Gemini Flash, managing version control with Git
- Enabled real-time health data synchronization across staging and production environments by integrating Apple HealthKit, Dexcom, and FreeStyle Libre third-party APIs

IQVentory

July 2026 – Present

Software Sales Intern

- Qualified 16+ business prospects and maintained lead pipeline through targeted outbound outreach using proprietary CRM

New York Institute of Technology

July 2026

Tech Coach

- Mentored 40 high school students across two intensive one-week programs, leading 3 teams per week through full project lifecycles from concept to final presentation, applying hands-on technical coaching in prototyping and hardware integration

The Campus Slate, New York Institute of Technology

Sept 2024 - Present

Web Developer & Digital Content Manager | Python, Flask, Supabase, PostgreSQL, Vercel | [GitHub](https://github.com)

- Built Flask web app with Supabase and Vercel, replacing Wix to save \$200+ annually and give team full content control
- Created password-protected admin dashboard, cutting publishing time from days to minutes by letting staff self-upload articles and PDFs

Projects

Online Store Management System | Java, MySQL, Swing | [GitHub](https://github.com)

May 2026

- Built a fully functional full-stack desktop application with three-tier role-based access control using Java, MySQL, Swing, and JDBC to manage inventory, user accounts, orders, and coupons

Restaurant Reservation System | Java | [GitHub](https://github.com)

December 2024

- Solved real-world scheduling challenges including waitlist fairness, duplicate prevention, and fast phone lookup by implementing LinkedList, TreeMap, Queue, HashSet, and a custom BST in Java

Activities & Leadership

Society of Women Engineers, New York Institute of Technology

January 2026 – Present

Treasurer

- Delivered 5+ engineering career events on budget for a 40-member chapter by managing per-event budgets of \$500 and overseeing expense tracking, procurement, and fund disbursement

Bengali Student Association, New York Institute of Technology

September 2024 – Present

Vice President

- Revived a dormant organization by leading a 10-member executive board to execute 20+ cultural and academic events per semester, driving increased attendance through coordinated logistics, food planning, and activity curation for 50+ members

Counseling & Wellness Office, New York Institute of Technology

June 2024 – Present

Peer Health Educator

- Reached 600+ students across 20+ wellness workshops averaging 30+ attendees per session by facilitating peer health outreach after completing 12-hour NASPA-certified training
