Professional Summary

Computer Science student at NYIT concentrating in AI with hands-on backend experience building REST APIs and AI-integrated data pipelines. Currently a Backend & AI Engineer intern at NutriScan (Python, MongoDB, Google Gemini Flash) and a Software Sales intern at IQVentory. Built a custom Flask CMS that replaced a paid Wix platform for a student publication, saving \$200+/year. Seeking 2027 internships in backend and AI engineering.

Education

New York Institute of Technology

Bachelor of Computer Science, Concentration in Artificial Intelligence

• Dean's Honor List (Spring 2024 & Spring 2025) | Presidential Honor List (Spring 2026)

Old Westbury, NY

Expected Graduation: May 2027

Skills & Awards

Programming Languages: Python, Java, TypeScript, HTML, CSS

Backend & APIs: REST API Development, API Integration, Data Pipelines, Flask, MongoDB, MySQL, PostgreSQL

AI/ML: Large Language Models (LLMs), Google Gemini, Prompt Engineering, AI Pipeline Development

Tools: Git, Vercel, Supabase, Docker, Google Workspace

Certifications: NASPA Peer Educator (June 2024), Girls Who Code (August 2022)

Awards: Zennabelle Sewell Heart Award (2026), Office of Student Engagement Award (2026)

Experience

NutriScan

July 2026 – Present

Backend / AI Engineer Intern

- Developed and deployed backend REST APIs supporting an AI-powered food recognition platform in a live staging and production environment using Python, MongoDB, and Google Gemini Flash, managing version control with Git
- Enabled real-time health data synchronization across staging and production environments by integrating Apple HealthKit, Dexcom, and FreeStyle Libre third-party APIs

IQVentory

July 2026 – Present

Software Sales Intern

- Conducted outbound cold calls to 100+ prospects, introducing software solutions and IT services to potential business clients

New York Institute of Technology

July 2026

Tech Coach

- Mentored 40 high school students across two intensive one-week programs, leading 3 teams per week through full project lifecycles from concept to final presentation, applying hands-on technical coaching in prototyping and hardware integration

The Campus Slate, New York Institute of Technology

Sept 2024 - Present

Web Developer & Digital Content Manager | Python, Flask, Supabase, PostgreSQL, Vercel | [GitHub](#)

- Built Flask web app with Supabase and Vercel, replacing Wix to save \$200+ annually and give team full content control

Projects

NYIT Badminton Team Manager | Python, Flask, SQLite, PWA | [GitHub](#)

Sept 2024 - Present

- Built a full-stack Flask web app with 15+ features including attendance tracking, tournament brackets, performance ratings, and leaderboards, used by 12 active team members

Online Store Management System | Java, MySQL, Swing | [GitHub](#)

May 2026

- Built a fully functional full-stack desktop application with three-tier role-based access control using Java, MySQL, Swing, and JDBC to manage inventory, user accounts, orders, and coupons

Activities & Leadership

Society of Women Engineers, New York Institute of Technology

January 2026 – Present

Treasurer

- Delivered 5+ engineering career events on budget for a 40-member chapter by managing per-event budgets of \$500 and overseeing expense tracking, procurement, and fund disbursement

Bengali Student Association, New York Institute of Technology

September 2024 – Present

Vice President

- Revived a dormant organization by leading a 10-member executive board to execute 20+ cultural and academic events per semester, driving increased attendance through coordinated logistics, food planning, and activity curation for 50+ members

Counseling & Wellness Office, New York Institute of Technology

June 2024 – Present

Peer Health Educator

- Reached 600+ students across 20+ wellness workshops averaging 30+ attendees per session by facilitating peer health outreach after completing 12-hour NASPA-certified training

New York Institute of Technology

June 2024 – Present

Peer Advisor

- Guided 15+ students weekly by providing personalized academic and registration support for successful course planning
